▼ I'm fucking pumped watching this. This is why big tech censored him today. He's changing the narrative. We're all supposed to believe this red mirage bullshit that Trump warned us all about. The red mirage was illustrated through Fox calling Arizona and Virginia at 0% and REFUSING to call Georgia, Michigan, Wisconsin, and PA even though he was statistically impossible to lose any of them at 2am as far as I was aware. I still don't think Fox called Alaska. The reason for this is you're supposed to believe that Trump loss a fair election. When in reality at 2am he should have already been able to call the election but he wasn't able to because the media didn't give him their blessing. HE WON. Instead we got the narrative that Biden was always leading and Trump was behind. It's so you can swallow the fucking pill of Trump losing more graciously while at the same time muddies a victory of his.

▼ All this makes me think that short but very public fight he had with the President was meant to throw everyone off his scent, meanwhile he's been working behind the scenes as Trump's agent outside of government. Hell, if you look at that New Federal State of China, Bannon signed on to openly lead an effort to overthrow the CCP. If that's not based as FUCK I don't know what is.

The military made up of our hardened brothers and sisters while you have a dildo stuck up your ass in your dads' basement?

You, shilling for a candidate who is a pedophile, who works with China, who has sold out our Country again and again, and who would sign us up for global communism (The Great Reset) without even a glance?

If he calls up the militia NOW, then it solves nothing. Litigation is going on, no one has claimed victory yet, but the optics would be disastrous for Trump. 2 Honestly, using Han Zimmer's "Time" is basically like cheating in videos like this it's so impactful.

26 We are talking 1776 level here. I am a citizen of the United States, I am not a subject. The difference is holding my elected representatives accountable by the threat of removal from office. if the vote isn't real then the threat isn't real and the government no longer has consent of the governed. Our founding fathers and all those who sacrificed from that day in 1776 until today are owed this by us. All of our days to where our great great great grandchildren are sitting in their rocking flying chair whatever they have, reveling in it ✓

▼ Voter fraud should be a capital offense! I'm compensated for my labor because I'm expending the finite time I have on this planet. That compensation is then taxed to make the world better for society as a whole. In exchange for my taxes, I am due a voice in how society functions. My vote is therefore worth 4 months of my life every single year. If a person voted for Biden, I respect that decision. That person earned it with blood sweat and tears. I will defend that persons right to make that decision with my life. The Department Of Justice needs to do it's damn job. No fraud on this scale can be perpetuated without evidence. I'm placing the fate of the Republic solely on the DOJ's shoulders. We agreed that the DOJ should exist because people like me are too brutal and savage to be allowed to dispense justice. We will have justice, please for the love of god, do your damn job DOJ!

7 "Soldiers, Sailors and Airmen of the Allied Expeditionary Force!

▼ You are about to embark upon the Great Crusade, toward which we have striven these many months. The eyes of the world are upon you. The hopes and prayers of liberty-loving people everywhere march with you. In company with our brave Allies and brothers-in-arms on other Fronts, you will bring about the destruction of the German war machine, the elimination of Nazi tyranny over the oppressed peoples of Europe, and security for ourselves in a free world.

Your task will not be an easy one. Your enemy is well trained, well equipped and battle hardened. He will fight savagely.

But this is the year 1944 ! Much has happened since the Nazi triumphs of 1940-41. The United Nations have inflicted upon the Germans great defeats, in open battle, man-to-man. Our air offensive has seriously reduced their strength in the air and their capacity to wage war on the ground.

Our Home Fronts have given us an superiority in weapons and munitions of war, and placed at our disposal great reserves of trained fighting men. The tide has turned! The free men of the world marching together to Victory!

I have full confidence in your devotion to duty and skill in battle. We will accept nothing less than full Victory! Good Luck! And let us all beseech blessing of Almighty God upon this great and noble undertaking."

- Dwight D. Eisenhower

0 That was outstanding man. Well done.

Steve said other important things on the show, though less dramatic. For one, time is on our side. Electoral college is a few weeks away. That's a long time for evidence of fraud to be made public and for recounts and other challenges. The thieves have the clock against them. They're vulnerable as the days pass, so they must try to force a surrender quickly. Hold fast and make the case.

And if the election must go to the House, the GOP state delegations have the majority - one vote per state delegation.

It won't be decided by the Murdochs or anyone else, unless we surrender to them.
